

GRADE 10 MATH - Algebra Assignments for week 26 to 30 September

When you report to your first Math class, you must hand in a set of completed (pen and paper) worksheets for each of the following topics plus a one paragraph (10 lines) self-reflection journal entry.

Objectives:

- Refresh skills previously learned
- Consolidate prior knowledge
- Identify areas that need attention
- Self-assessment (Tell us about any problem areas)

Resources :

- Internet access
- Paper
- Pencil

Worksheet topics:

Compulsory: (one set per day)

1. Basic Equations
2. Two single terms, Distributive property, FOIL method
3. Exponents of variables
4. Finding a GCF of two terms, Factoring a GCF from an expression
5. Points(print the graph paper)

Optional: You may select any other worksheets that you would like to review.

Directions:

Visit the following site: <http://www.algebrahelp.com>

Select the **Worksheets** tab in the student section.

Select the topic as indicated above.

If you need extra help, click on the **Lessons** tab and select the topic.

You must complete the worksheet on paper and show all your work.

Place your name on every page.
